

STRAIGHTENING LAWS IN ALGEBRAIC COMPLEXITY

ANAKIN DEY

ABSTRACT.

1 Introduction

2 Preliminaries on Algebraic Complexity

2.1 Computational Models

2.2 Basic Structural Results

2.3 Border Complexity

2.4 Lower Bounds and Polynomial Identity Testing

3 Preliminaries on Straightening Laws

3.1 Determinantal Ideals

3.2 Pfaffian Ideals

3.3 Symmetric Determinantal Ideals

3.4 Permanent Ideals

3.5 Hankel Ideals

4 Prior Work

4.1 Generalities on Complexity in Ideals

4.2 Approximative Results

5 Current Work on Ideals with Straightening Laws

6 Future Work and Open Problems

6.1 Symmetric Determinantal Ideals

6.2 Permanental Ideals

6.3 Hankel and Toeplitz Ideals

6.4 Complexity of Straightening
